

Advanced Safety Management Training

October 18-20, 2010 | Madison, WI

This unique three-day course provides construction safety and health professionals with the next-level knowledge required to successfully manage a company-wide safety program.

Moving beyond the basics of Focus Four training, AGC's Advanced Safety Management Training Program will give participants a more holistic view of safety's role in project and company success, as well as advanced tactics and best practices for managing all aspects of a corporate safety program.

Participants will also focus on the importance of "selling" safety throughout the organization and methods to generate buy-in from different audiences.

Topics Covered Include:

- Managing a Field Safety Program
- Training Supervisors
- Recordkeeping Requirements and Best Practices
- Legal Aspects of Construction Safety
- Insurance and Risk Management
- How to Handle Multi-Employer Worksites
- Crisis Management Tactics

Registration:

\$1,195.00 (includes training materials, lunches and snacks)

Who Should Attend:

Participants should have first-hand experience managing construction safety and health issues on either a project or corporate level and a working knowledge of OSHA Construction Standards. Successful completion of AGC's Safety Management Training Program or an equivalent construction-focused safety primer course is encouraged.

Location:
