

WHY iSqFt?

iSqFt® is quickly becoming the construction community's preferred partner by delivering a solution that is *equally* beneficial and cost-effective for both GC and Sub. Our innovative network increases exposure, maximizes bid volume, cuts document acquisition costs, and provides contractors with quicker access and more time to spend with the plans and specs – enabling you to bid smarter!

More than just plans online. iSqFt's unique contractor network not only allows you to more efficiently meet your construction document needs through a 24/7 online platform but also puts your company in front of the region's leading commercial General Contractors at the time they are looking for bidders and sending their invitations-to-bid.

Public & private opportunities all under one roof. Or, rather, one URL. Through our network of general contractors you will have abundant chances to create new relationships and investigate new opportunities. However, all commercial contractors know that if you don't keep your crews busy, your competition will. The iSqFt® Construction Network also keeps you connected to the public sector by delivering the information you need to discover publicly bidding projects that meet your company's criteria. It's one-stop shopping at its best.

Giving you the tools to fit your needs. If you're looking for more work, iSqFt® keeps you connected with GCs that are constantly seeking subs/suppliers who deliver a quality product—on-time and on-budget. If you've got more work than you can handle, iSqFt® can help you to more efficiently manage the opportunities being presented to you so you can focus on only those that suit you perfectly. No matter where you sit – iSqFt® has a solution to fit *your* company.

As an iSqFt® Construction Network member you will receive ...

Access to lucrative, negotiated opportunities with many of the area's leading commercial, multi-family, and tenant finish GCs – with more coming on board every day

24/7 online access to online documents for public commercial projects through our Internet Plan Room (IPR), PLUS instant & unlimited access to private construction documents from the moment you receive your ITB – saving valuable time spent fighting traffic to get and review plans just to determine whether or not you even want to bid on the project

The ability to maintain your own unique company profile – accessible to each and every GC member of the network – complete with your contact information, applicable CSI divisions, counties in which you work, disadvantaged business status, PLUS 250 characters to tell those GCs why you're the best at what you do

Access to professional reprographic services at competitive rates from familiar, local vendor partners

Experience the iSqFt® difference for yourself.
